ABOUT US

M.E.S Central school Calicut functions in a serene atmosphere in an infrastructure with all modern amenities. The class rooms are digitalized. Latest methodologies are adapted in the classrooms. Montessori education is imparted to tiny tots. From classes VI to X NCERT syllabus is followed. The school gives great emphasis on all round development of the personality of each student. Students are taught to be independent and self reliant.

ACADEMICS

The primary school students are gradually introduced to a more formal pattern of learning. Syllabus provides scope for originality and creativity, while emphasis is laid on understanding of the subject matter. Progress is determined by the work sheet assignments given every month. To make learning more captivating we have introduced digital teaching and learning in our school. Teachers are now able to use videos, animations, live images and graphics while teaching the chosen topic in the "smart classrooms"

TEACHING FACULTY

Effective teaching requires a blend of innovative teaching style, techniques and activities. Qualified and experienced teachers combine expertise with resourcefulness to bring out the best in the students. Digitalized class rooms enable learning more effective & interesting. The unique student-teacher relationships ensure that the students are able to realize and develop their potential.

THE MONTESSORI

Montessori Method is defined as "education by means of liberty in a prepared environment" makes learning an exciting process of discovery, leading to concentration, motivation, self-discipline and love for learning. It is perhaps, the most widely accepted system of child education for the pre primary level.

The Montessori Method is designed in such a manner that the impetus of the holistic development of the child comes from the child himself. The child is the centre of education and the teacher is a guide and observer in the process of learning. Environments are created in which the child's personality can be made to flower and grow to its fullest potential.

CO-CURRICULAR ACTIVITIES

Learning becomes enjoyable when it is supported by activities that not only stimulate the mental faculties, but also build up the self –esteem of the students. The teachers facilitate active participation through project works, seminars, inter- active class room teaching, field trips and excursion . All of these generate excitement and interest in the process of acquisition and internationalization of knowledge

EXTRA-CURRICULAR ACTIVITIES

The extra-curricular activities give every student valuable opportunities to realize his/her potential. They promote healthy inter-personal relationships and cultivate values such as co-operation, commitment and excellence. Expressions through their talent give them a sense of fulfillment and achievement The cultural activities at all levels are organized with a view to identify the talents. Almost every student develops the confidence to reach the center stage. In the process they develop initiative, creative, originality and organizational skills

SPORTS& GAMES

Physical training, games and athletics are employed to the best advantage to promote physical development and a healthy spirit of competition. While competent staff is always preset to give guidance, the maximum scope given for initiative and leadership among the students themselves, Training in skills is imparted during the physical education periods within and outside school hours. Besides provisions for usual sports and games and karate training, band music practice are given.

PUBLIC SPEAKING

The oratorical skills of the students receive an added impetus through the inter house speech competitions, seminars and discussions

COMPUTER CENTER

The school has a well-equipped computer center, keeping in mind the tremendous advance in the field of information technology

CLUB

Organized club activities bring together students who wish to utilize their energy constructively. These students are encouraged to become members of various clubs such as literary club, Eco club, Science club purposeful tasks and achievement of goal contribute towards all-round development.
